

LADDER SERIES 2200

Over platform telescopic boat ladder made of mirror-polished AISI 316L stainless steel for boats and ribs with 4 steps and retractable and self-erecting handles. The handles move up and down automatically only by rotating the ladder and simplify boarding from the water and ladder recovery when onboard. Steps in oval stainless steel have a water-draining hole, welded stainless steel lateral sealing caps and are available with non-skid pads or wood splint.

This ladder meets the criteria of the new amendment to ISO 15085

ART	A	B	C	D	E	F	STEPS
2200	225	995	405	425	65	395	4 with non-skid grip
2200 GL	225	995	405	425	65	395	4 with wood splint
2200 L	225	995	405	525	65	395	4 with non-skid grip
2200 LGL	225	995	405	525	65	395	4 with wood splint
