

P 216 President F Manual Helm Seat

The comfortable and elegant Besenzoni pilot seats with fixed backrest can be installed on different types of support: for example polished or powder coated stainless steel support with electric movement in order to offer the function of automatic horizontal sliding of the seat or its movement raises/lowers. For space issues or functionality, they can be combined with manual height adjustable supports with gas piston and manual slide forward/aft. Many combinations can be made!

- Helm seat with fixed backrest
- Standard vinyl fabric upholstery or genuine leather
- As an alternative, we can cover the chair using the client's fabric
- External base covering
- Manual fold up footrest
- Optional: custom logo embroidery and diamond stitching
