## 7087 Alhena 40 Wall Light

The Alhena 40 Wall luminaire is a discrete and compact fitting. Designed with the same tubular inspiration used on the other Alhena fittings, the 40 Wall features an LED module housed inside a Ø40mm solid brass tube. The fitting can be installed in a number of ways to either throw light out and away from the installation surface or direct light against it in a washing effect. The luminaire can be installed in any orientation to either perform as a downlighter or uplighter.

The product is entirely made from marine-grade materials and features an extremely efficient 2 Watt LED module.

- Interior wall light with multiple installation possibilities
- Brass body with galvanic treatment, chrome plated
- Power LED module in either 3200°K or 4000°K
- Wall Washing light effect
- Height (mm) 80.00
- Width (mm) 40.00
