

## 4061 Rim Latch - Privacy Function

A marine-grade rim door latch with privacy function. This door latch is ideal for use as a simple latch but can also be used where a privacy function is required thanks to its pin activated handle block mechanism.

This latch is available in a brass or chrome plated finish and is supplied complete with a matching striker plate. The latch has a universal door handing design and can simply be inverted for left or right handed doors.

The lock contains an internal handle righting spring which will help to return the door handle to a horizontal position after use. For very heavy handles, it is recommended that an additional handle rose spring be used in conjunction with this latch.

Lock Type Rim Lock  
Spindle (mm) 8.00  
Latch Length (mm) 46.00  
Latch Height (mm) 72.00  
Latch Width (mm) 15.00  
Lock Backset (mm) 25.00  
Weight (kg) 0.15
