

5010 Sextans L

Marine-grade brass ceiling spotlight in a chrome plated finish.

Multiple light elements available (either Power LED, SMD LED or G4 Halogen)

Multivoltage product will operate between 10-30Vdc

Fully dimmable

The power LED version is IP65 rated (interior and exterior use)

The SMD LED and G4 halogen versions are IP43/20 rated (interior use only)

Weight (kg) 0.23

Manufacturer Foresti & Suardi

Installation Recessed

Light Element Type G4 Halogen

Wattage G4 Max. 20W

LED Colour N/A

Input Voltage 12 / 24Vdc

IP Rating IP43/20

Dimmer Yes

Bezel Size (mm) Ø93.00

Cut-out Size (mm) Ø61.00

Depth (mm) 28.00

Finish Chrome

Power LED

Our Power LED is the ultimate in LED technology. It blends together impressive light output and low power consumption without compromise. A cluster of three 1 watt LED chips in the centre of the fitting provides the most natural light, in the same style as a halogen. As standard, the Power LED module comes in 3200K and 4000K white as well as white to red and white to blue color switching.

SMD LED

The SMD module is a less expensive alternative to our Power LED range. The SMD module represents excellent value for money, achieving a practical balance of performance and style. It is an excellent choice for those looking to use an LED solution whilst keeping an eye on costs. As standard, our SMD LED modules to come in 3200K and 4000K white.

G4 Halogen

For situations where power consumption is not an issue, our G4 halogen models continue to be a good choice. They provide an excellent light output and are cost effective.
