PLATÒ

Platò is a LED lamp designed to illuminate and decorate.
It is conceived for wall installation and it emits indirect light at 360°.
The lamp body is made up by an AISI 316 stainless steel plate and an opal diffuser.
Platò is available in two different sizes, 30 and 60 centimetres long.
The rounded shape and the lightness sensation given by the "wash wall" illumination allow installation of more elements in the same room.

Platò was conceived by architect Simone Micheli.

- Power type Constant Voltage
- Light source 216 x LED
- Supply 20 ÷ 30 V
- Power consumption 11,1 W
- Current consumption 0.46 A
- Average lifetime 50,000 h
- Dimmable Yes
- Frame material AISI 316 S/STEEL
- Finishings CHROMED
- Light colours DAYLIGHT / WARM WHITE
- Mounting SCREWS

PRODOTTI ESCLUSIVI

DAYLIGHT 3800-4100 ˚K
- CRI ≥90
- Angle 360˚
- Light flow 1100 lm

WARM WHITE 2900-3100 ˚K
- CRI ≥90
- Angle 360˚
- Light flow 940 lm
